

# Land-based Engineering Technical Certificate Level 2

16-19

If you love science, technology, engineering, or information technology, then a career in land-based engineering could be for you. The skills and types of land-based engineering include diagnostics repair and testing, all in the context of diesel and petrol engines, equipment controlled by GPS technology and integrated into environmental information – a fantastic mix of innovation and problem solving. It's not all about farming either, everything concerned with the upkeep and control of the countryside, forestry, sports grounds and open spaces involves the application of engineering solutions.

We offer both full-time and apprenticeship routes for school leavers. Once you have completed the Level 3 qualification you will be able to work all over the world in a range of careers maintaining and repairing land-based machinery and technology.

Modern agriculture is amazing and if you look more closely you will see things that will truly impress you. No longer is this an industry caught in a technological backwater. The career opportunities are fantastic and those colleges, training providers and universities involved will tell you that the job opportunities are excellent with many more jobs than there are people to fill them.

This intermediate qualification is equivalent to five GCSEs and is an ideal starting point to learn the basics for a career in land-based engineering.

What our learners say:

Tom Tamblyn – Agricultural Engineer Level 2 2020/21 - 'I have really enjoyed the course this year, the practical work has linked to the theory making it both engaging and useful. The variation of equipment we use helps us build a good foundation for what we want to go and do next year. Being in an industry work placement helps us to gather real experience to reinforce what's being learnt at college'

## ENTRY REQUIREMENTS

Entry requirements for external applicants and school leavers

- 3 or more GCSEs, including Maths at Grade 4 or above, and the others at Grade 3 or above, or successful completion of a relevant Level 1 qualification.

Entry requirements for existing learners with the Cornwall College Group

- Successful completion of previous course and Maths GCSE at Grade 4 or above and English GCSE at Grade 3 or above.

Please note: Some of our courses may have extra entry requirements or need a bit more information, like evidence or experience. Don't worry—we'll guide you through everything when you apply!

## LOCATION & NEXT START DATE(S)

Duchy College Stoke Climsland - 8 September 2025

**LEVEL**  
Level 2

**DURATION**  
1 Year

**ATTENDANCE**  
Full-time

**FEES**  
Tuition Fees: £1709.00  
FREE for school leavers\*

Fees apply to adults and HE students only. Only the most common fees scenario is shown. Actual fees may vary depending on your personal situation. Please contact us for further information. Courses listed on this website are indicative of the subject, nature and level of study. The College reserves the right to alter specific qualifications titles, awarding bodies and levels of qualification, which can change in year. Any cost may also vary, based on personal funding eligibility. The Cornwall College Group reserves the right to withdraw any course listed at any time.
