

Horticulture Machinery Operation and Maintenance

Adult

Employer Training

This is a one day course is aimed at small businesses, self-employed individuals and property owners with larger gardens. During the day participants will learn how to maintain their garden machinery including line trimmers, brushcutters, hedge cutters and rotary mowers. Instruction will be given to ensure the machines work deftly and efficiently.

For those requiring a more in depth knowledge on specific equipment including major servicing and repair please ask about a more advanced servicing and repair course.
